The following pages document the extensive research undertaken by Cancer Council NSW staff and published in peer-reviewed publications in 2016/17. This reflects the breadth of our research into cancer causes, health services, prevention and supportive care, and the influence of our work locally and internationally. Also included are a number of reports and submissions made by Cancer Council NSW to decision-makers regarding public health policy and recommendations.

Publications

Chapman S, Azzi L, Luo Q, Sitas F. Response from the authors to correspondence referred to ‘Has the incidence of brain cancer risen in Australia since the introduction of mobile phones 29 years ago?’ Cancer Epidemiol. 2016;44:138-140.
