

## Question checklist for hormone therapy

Asking your doctor questions will help you make an informed choice. You may want to include some of the questions below in your own list.

- Is hormone therapy available as part of my treatment plan?
- Why do I need hormone therapy?
- What are the advantages and disadvantages of hormone therapy for me?
- Will I have other treatments as well as hormone therapy?
- Which hormone therapy drug are you recommending? Does it have different names?
- How do I have hormone therapy?
- How much does treatment cost?
- How long will I be on hormone therapy?
- Can I take my other medicines while I am having hormone therapy?
- How will I know if the treatment is working?
- What are the risks and possible side effects of hormone therapy?
- Will the side effects be long term or short term?
- What can I do to help manage any side effects?
- Will hormone therapy affect my sex life and fertility?
- Are there any complementary therapies that might help me?
- Should I change my diet or physical activity during or after treatment?
- How often will I need check-ups while I'm on hormone therapy?
